### DETAILED ACTION

1. This application is in condition for allowance except for the presence of claim 20 to an invention non-elected with traverse in the reply filed on 04/27/2005. Applicant is given ONE MONTH or THIRTY DAYS from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.

The prosecution of this case is closed except for consideration of the above matter.

2. Applicant's election with traverse of group I in the reply filed on 04/27/2005 is acknowledged. The traversal is on the ground(s) that the proposed arrangement is not a materially different from the claimed the integrated circuit. This is not found persuasive because the product produced by claim 1 clearly includes a wire bonding whereas the product of claim 20 does not. Although product of claim 20 is configured for wire bonding the product of claim 20 may or may not include a wire bonding. For example, it can be interconnected by bumps. Furthermore, the product of claim 20 does not require the step of lowering a bonding tool to at least one height sensing pad. The height of the sensing pad can be determined by a direct measuring (measuring the thickness).

The requirement is still deemed proper and is therefore made FINAL.
